

Huseyn Huseynov

UX/UI Designer | Digital Products & Enterprise Experiences

Boston, MA | 617-987-1603 | huseyn1998@gmail.com

Portfolio | [linkedin.com/in/huseynn](https://www.linkedin.com/in/huseynn)

UX/UI designer creating clear, usable digital experiences across travel, retail, healthcare, and financial services. Experienced in user research, information architecture, responsive interfaces, and interactive prototyping. Partners with product managers and engineers to turn complex workflows into practical, consistent experiences.

EXPERIENCE

Royal Caribbean Group

UX/UI Designer - Casino Hub | Remote | Sep 2025 - Present

- Designed web and mobile Casino Hub experiences for Royal Caribbean and Celebrity Cruises, covering loyalty, offers, and responsible gaming features.
- Partnered with product managers, developers, and UX leads to align cross-brand interactions and web/mobile patterns with the design system.
- Audited designs across four responsive breakpoints to improve layout consistency, accessibility, and usability.
- Helped define MVP scope, iterate on stakeholder feedback, and propose scalable loyalty experiences for the Casino Vision 2026 roadmap.

Amazon

UX Designer - Fleet Management System | Feb 2025 - Sep 2025

- Designed low-battery alerts and cart-status workflows for handheld and web tools supporting Dash Cart fleet operations.
- Created checkout-zone setup flows, store-map updates, and reusable interaction patterns using the Double Diamond process and Figma prototypes.
- Refined calibration and validation screens using partner feedback and validation logs, with clear status indicators and accessible UI components.
- Designed temperature and out-of-service alerts; collaborated with product, engineering, and QA to validate interactions and preserve design intent.

Vitanur Inc.

UX Designer - Financial Products (Bloomberg) | Sep 2023 - Sep 2024

- Structured financial information through site maps, wireframes, and user flows to support clearer navigation and task completion.
- Validated information architecture through user testing and collaborated with designers, developers, and stakeholders on financial product experiences.

SKILLS & TOOLS

Design: User research, information architecture, journey mapping, service blueprints, wireframing, prototyping, usability testing, responsive design, design systems, Agile/Scrum.

Tools: Figma, Adobe XD, Sketch, Miro, Photoshop, Illustrator, Jira, Trello, Asana, Framer, Wix.

Technical: HTML, CSS, SQL; basic JavaScript.

UX/UI Designer

EXPERIENCE, CONTINUED

UnitedHealth Group

Senior UX Designer / Lead UX Design Project | Sep 2021 - Sep 2023

- Conducted user research and translated findings into journey maps and service blueprints to identify workflow improvements.
- Designed and prototyped a healthcare provider dashboard in Figma, with a focus on information hierarchy, data visualization, and accessibility.
- Led design workshops and stakeholder presentations to communicate concepts, gather feedback, and align cross-functional teams.

Vitanur Inc.

Senior UX Designer | Sep 2019 - Sep 2021

- Led UX research from planning through analysis and reporting, combining qualitative and quantitative insights.
- Designed web and mobile interfaces, developed reusable design systems, and tested interaction prototypes through A/B testing and user feedback.

Yelo Bank, Azerbaijan

UX/UI Designer - Contract | Sep 2018 - Sep 2019

- Designed digital business-banking workflows, including credit applications, payments, signatures, and tax orders.
- Conducted interviews and usability testing with more than 120 customers, including field research in five regions for an agricultural credit product.
- Worked with a two-designer team on the mobile business-banking design system and supported retail banking product experiences.

IB Club, Azerbaijan

Junior UX Researcher | Jul 2016 - Aug 2018

- Conducted user research and usability testing; developed personas, journey maps, and wireframes to inform interface improvements.
- Contributed to a project using the Salesforce Lightning Design System to improve design consistency.
